Martin, C.V.O., C.B.E., who for eighteen years served as the Honorary Director of the Boy Scouts International Bureau.

1922-03 Chief Scout of the World

This Conference re-affirms its recognition of Sir Robert Baden-Powell as the Chief Scout of the world, and asserts its belief that the ideals as set forth in "Scouting for Boys" are so fundamental as to transcend the limit of race and country.

They place on record their appreciation of the immense obligation under which the world lies for the system which his genius has evolved and the distribution of that system to all nations to which his personality has materially contributed.

1922-04 International Bureau

This Conference affirms its conviction that the formation of the International Bureau which resulted from the Jamboree held in London in 1920 has been an unqualified success in promoting harmonious relations between the different Boy Scouts' Organizations in the world - a success to which the services of Mr. H.B. Martin, the first director, have greatly contributed - to Mr. Martin the Conference tenders its grateful thanks for his self-sacrificing labours, his broad outlook, and his unflinching tact and courtesy.

1922-05 Hospitality of Conference

That this Conference desires to offer hearty thanks to all those to whose work and hospitality the success, inspiration and pleasure of the Conference are due - to the French Government for sympathy and support; to the city of Paris for co-operation; to the French Committee for the arrangements; to Monsieur Marty; to the interpreters and their assistants; and finally to the Boy Scouts, who have acted as messengers and in many other capacities with unflinching courtesy and consideration.

1922-06 Cooperation with Institutions Focused on Youth

That this Conference places on record its desire to work on terms of harmonious co-operation with all institutions and individuals having for their object the welfare and wholesome upbringing of the rising generation.

1922-07 Girl Guides

That the organisations for girls corresponding to the Girl Guide Movement should not use the name "Scout," "Eclaireuse," or any name causing confusion with the Boy Scout Movement.

It is felt that the best results will be secured by keeping the two movements separate and distinct in every way, each extending to the other helpful co-operation.

1922-08 Child Welfare

That it be brought to the notice of the proper authorities and of those interested in child welfare, that the Boy Scout Movement may be considered as an effective means of preventing crime and delinquency among youth.

1922-09 Fleur-de-Lys

That the universal acceptance of the Fleur-de-Lys as the Scout emblem was impracticable, inasmuch as in certain countries (notably France), the Fleur-de-Lys has a political significance.

1922-10 Translation of "Jamboree"

That in future JAMBOREE should be published in the French and English languages only, and that the space so set free should be utilised by additional matter.

1922-11 Membership, Voluntary

The Conference affirms that it is undesirable that Scouting should be made compulsory.

1922-12 Unity

The Conference decided that wherever possible, in the best interests of the boys of all nations, every reasonable effort be made for an amalgamation of the various associations in any one country and if this be impracticable, the various associations concerned arrange amongst themselves for the selection of one International Commissioner to do business with the International Bureau.

1922-13 University Scout Clubs

Having regard to the opportunity for the development of Scoutmaster leadership represented by older Scouts in colleges and universities, the International Conference recognizes and encourages the organization of university and Scout clubs as a desirable means of the extension of our Scout ideals.

1922-14 Registration

That the Egyptian Boy Scout Association, the Iraq Boy Scouts Association, and the Albanian Boy Scouts Association be recognised and registered by the International Bureau.

1922-15 Applications for Membership

That the applications, for recognition from Mexico and Syria be referred to the Executive Committee.

COPENHAGEN, DENMARK, AUGUST 18-20, 1924

Note: Resolutions 1924-01 to 1924-09 are Resolutions of Thanks and Appreciation

1924-10 Publications, Copyright

The Conference suggests that all official publications shall be interchangeable when there is no copyright, and with an indication of the source, with the right of free translation by the different Associations of the world of any article of their contents and of free use of their cuts.

1924-11 Patrons of Scouting

The Conference suggests to all Boy Scout Associations in the world that they should consider the desirability of troops choosing for themselves patrons from amongst the great men or women of history, and thus promote civic education of the youth in the spirit of the highest human ideals as conceived and realised by this or that particular race.

1924-12 Protection of Uniform, Etc.

The Conference resolved that an effort be made in all countries where Scouting is organized, to prevent or combat any unauthorized use of Scout titles, uniforms, badges or insignia, and likewise all attempts to exploit the popular interest in Scouting apart from the official purposes of the respective Scout organizations.

1924-13 Speaking/Writing in Foreign Countries

The Conference resolved that Scout officials be requested to consult with the Scout organizations of a foreign country, before accepting invitations to make public addresses or to write for publication in such foreign country on subjects involving an interpretation of Scouting or of its organization or methods of procedure, so as to avoid any possibility of friction or of embarrassment.

1924-14 Principles of Scouting

The Boy Scouts International Conference declares that the Boy Scout Movement is a movement of national, international and universal character, the object of which is to endow each separate nation and the whole world with a youth which is physically, morally and spiritually strong.

It is national in that it aims, through national organizations, at endowing every nation with useful and healthy citizens.

It is international in that it recognizes no national barrier in the comradeship of the Scouts.

It is universal in that it insists upon universal fraternity between all Scouts of every nation, class or creed.

The Scout Movement has no tendency to weaken but, on the contrary, to strengthen individual religious belief. The Scout Law requires that a Scout shall truly and sincerely practice his religion, and the policy of the Movement forbids any kind of sectarian propaganda at mixed gatherings.

1924-15 Relations with Youth Movements

The Conference, after having heard the speech of Dr. Nitobé, representing the League of Nations, instructs the International Bureau to consider the establishment of relations with the advisory committee for boy scouts, girl guides and youth movements of the secretariat of the League of Nations, in order to draw up a programme for mutual co-operation.

1924-16 Policy, Non-Military

This Conference re-asserts and emphasizes the non-military character of the Boy Scout Movement.

The aims and ideals of the Movement are directed towards the development of a spirit of harmony and goodwill between individuals and between nations. (Re-affirmed 1963-16)

1924-17 Policy, International Recognition

This Conference desires to emphasize that in pursuance of the main object of the International Bureau, applications from national Boy Scout organizations for registration are not only welcomed but cordially invited. To preserve the essential unity of the World Boy Scout Movement and to ensure that the World Movement shall have as its unalterable foundation the recognition of Scout brotherhood, regardless of race, creed or class, certain conditions are essential.

It is the sense of this Conference that the International Committee in adjudicating on applications for registration apart from compliance with ordinary conditions should in so far as possible insist:

- a) That where more than one organization exists there shall be a federation based on the common Scout objective.
- b) That there should be no discrimination as to admission to membership of fellow subjects or citizens for any reason of race, creed or politics.

KANDERSTEG, SWITZERLAND, AUGUST 22-28, 1926

Note: Resolutions 1926-01 to 1926-10 are Resolutions of Thanks and Appreciation.

1926-11 Jamborees, Competition

The Conference recommends to the International Bureau that in planning for future Jamborees the programme be based on Scouting activities under conditions where competitions are reduced to a minimum and emphasis be placed on all-round Scout efficiency, where there is an opportunity to demonstrate Scout training.

Further, that in all events of a competitive nature involving physical strain, participation be limited to those specially trained for such events, and who are proven to be physically fit after suitable physical examination just prior to the event.

And further, that awards be limited to simple symbols of Scouting, and that, hereafter, no international championship awards be made.

1926-12 Registration

That the Exploradores Nacionales de la Republica Mexicana (Boy Scouts Association of Mexico) be forthwith recognised and registered with the International Bureau.

1926-13 Conferences, Preliminary Papers

The Conference requests that at future International Scout Conferences the text of reports be submitted, with translations, before the sessions. This would permit a study of questions before discussion, and would render many improvised translations unnecessary and thereby save time.

1926-14 Changes to Scout Promise and Law

The conference resolves that it is the duty of any Association registered with the International Bureau to notify the Bureau in the event of that Association having made, or intending to make, any modification in the Scout Promise, Scout Law, or in any other regulation embodying the essential principles of Scouting.

1926-15 Minorities

The Conference earnestly exhorts the national Boy Scout associations in countries where there are minorities, to give those minorities the right to form Scout troops, which, while belonging to the national association and subject to their statutes, have the right to use their own language in their inner life and to nominate their own Scoutmasters and leaders, who, however, must be citizens of the state.

The Conference further resolves that in its opinion any difficulty concerning Scouts belonging to a nationality in minority in a state should be dealt with directly between the Boy Scouts association of their original state and that of the state in which they are citizens. In the event of the two associations after serious consideration being unable to agree, the question should be submitted to the International Committee through the International Bureau for definite solution and decision.

1926-16 Request to the Press

The conference addresses an earnest request to the Press of the world to refrain from using the terms "Scout," "Eclaireur," "Scouting," etc., in their reports unless the matters referred to therein refer to members of recognised Scout organisations.

It has been observed that in Press reports, touring, hiking, outdoor excursions, picnics, river-camping, etc., are frequently confused with scouting, the expression "scouting" being applied to activities which have nothing in common with the Scout movement. The Press, who have always supported the Scout movement, will render the movement inestimable service by distinguishing between true scouting and false imitations.

1926-17 Travelling Facilities

The Conference notes with satisfaction the progress which has already been achieved in the matter of obtaining travelling facilities for groups of Boy Scouts belonging to an Association affiliated to the International Bureau and considering that, in the promotion of contact between young people of different nationalities, this question is one of fundamental importance, expresses a hope that in countries where no steps have as yet been taken in this direction, appropriate measures may be urged and adopted, and that countries which have already granted facilities will carefully consider whether any further concessions could be granted, in view of the importance of the aim in view, particularly in respect of elder scouts - Rovers-over the age of 18.

1926-18 Protection of Children

The conference strongly supports the resolution of the League of Nations Advisory Committee for the protection of children that in future town planning the question of the provision of open spaces for recreation and of swimming baths be kept in view and requests the members of the conference to bring this matter to the notice of their respective national delegates to the League of Nations.

1926-19 Child Welfare and Development

The conference associates itself with the declaration of the Comité d'Entente des Grandes Associations Internationales as follows:

"Implant the child in his natural environment, that is in his family and country, this remaining today, as formerly, the first principle of sound education.

"This is a permanent necessity, but it is even more marked, following upon the great upheaval, which has shaken all mankind broken down so many old barriers, and has left so many elements of trouble in our minds as well as in material things.

"Both for his well-being, as well as for the general good, the child, who is the future citizen, must be brought up to understand his duty, and learn that he must faithfully discharge all his obligations to his family, his comrades, his village or city, and to his country. He must be shown, moreover, that this necessary solidarity cannot, nor ought to stop at national frontiers: for amongst the various peoples, as amongst the different members of the same society, there is a community of rights and duties, and at the same time an inter-dependence which is continually increasing.

"The child must learn that civilisation has been, and still remains the common work of all the peoples, including those which in history have been most strongly opposed; and that, from the consciousness of this common heritage, and the desire to maintain and develop it, notwithstanding divergencies, the League of Nations came into being.

"Therefore, starting with the home, and from the beginnings of education in common, at school and in the organisations completing the work of the school, the child should be taught to be courteous to strangers, and his curiosity should be aroused to know their customs, and to understand their language and thoughts.

"The teacher should be able to find, in order to illustrate this spirit, excellent help in reading books, magic lanterns, films, pictures, etc., in the teaching of geography, history, letters, science and art.

"Enquiries should be undertaken in order to give to these different pedagogical instruments their greatest efficacy, and adapt them to the progressive needs of primary and secondary education.

"The young people of each country should be brought into as direct contact as possible with those of other countries, by every available means, such as visits abroad, courses of study, camps, exchange of letters, drawings, handicrafts, etc.

"These international exchanges completed, and extended in all directions, and in all forms of education by contact between pupils, young apprentices, students, professors - are suitable for directing young people towards the method of intellectual cooperation, and for favouring the work of the League of Nations."

1926-20 International Jamboree and International Conference 1929

The conference decided that the next International Jamboree and conference should be held in the year 1929 and that the question of the place at which it should be held be referred to the International Committee for decision.

BIRKENHEAD, UNITED KINGDOM, AUGUST 7-8, 1929

Note: Resolutions 1929-01 to 1929-12 are Resolutions of Thanks and Appreciation.

1929-13 International Committee

That the members of the former International committee be re-elected, with the exception of Lord Hampton and Captain Teuber, who are not willing to accept re-election. These two vacancies to be filled by Pere J. Jacobs and Count P. Teleki.

1929-14 Camping in Foreign Countries

That the proposal from France concerning camping in foreign countries be approved in principle, particularly as regards the giving of adequate notice to the country concerned. The International Bureau to be instructed to prepare a suitable form.

1929-15 Travelling, Facilities, Accommodation

That in connection with travelling facilities, accommodation etc., in accordance with the proposal from Hungary, all Scout Associations be requested to forward to the International Bureau the following information:

- a) To whom communications on the subject should be addressed.
- b) What (if any) concessions are granted on rail fares. Details of percentage of normal fare required.
- c) What passport formalities are required (if any).

International Bureau to prepare pamphlet from information thus received.

1929-16 National Camps

(Dutch proposal). That all Associations organizing national scout gatherings to which scouts from other countries are invited, should be requested to hold such national gatherings between July 15th and August 5th, if in any possible.

1929-17 International Conference 1931

That the kind invitation of the Austrian Association to hold the 1931 Conference at Salzburg (Austria) be accepted, subject to subsequent confirmation by the International Committee.

1929-18 International Rover Moot 1931

That approval of the holding of an International Rover moot at Kandersteg in 1931, immediately before or after the International Conference at Salzburg, be reaffirmed.

1929-19 Foreign Scouts, Admission

The Conference decides that the first two recommendations made by the delegates of Norway in respect of the admission of foreign Scouts in troops of another country be adopted. Text as follows:

- a) "That the foreign Scout must submit the necessary credentials, with the recommendation from his former association."
- b) "That the new association compares the requirements as to Scout class and rank, etc., in the two associations, and then decides whether the foreign Scout is to pass new tests or not..."

1929-20 Foreign Scouts, Troops

The International Conference is of opinion that no troop of Scouts of foreign nationality should be formed in any country except in consultation with the Scout headquarters of that country, and that the formulation of appropriate regulations be referred to the International Bureau.

BADEN-BEI-WIEN, AUSTRIA, JULY 23-29, 1931

Note: Resolutions 1931-01 to 1931-08 are Resolutions of Thanks and Appreciation.

1931-09 Scout Promise

The Conference desires to make it clear that in the Scout's Promise, the promise of duty "to my country" means duty to the constituted authority of the country concerned.

1931-10 Report to the International Bureau

The Conference requests that every registered association should send an annual report to the International Bureau, not only on its numbers, but on all matters of general interest (state of public opinion as to scouting, important events, initiatives taken, etc.)

1931-11 Difficulties, Consultation

The Conference requests that when difficulties arise in which the International Bureau may be of assistance, associations should report such difficulties to the Bureau, not after they have actually arisen and become acute, but when they are seriously threatening.

1931-12 Protection of Uniform, Etc.

The Conference records its gratification that in still more countries legal protection has been given to the use by National Boy Scout associations of titles, uniforms, badges, etc. The proved necessity of such protection to prevent the defrauding of the public by impersonation is, however, not appreciated in some countries and the Conference begs the League of Nations to accord its assistance by urging on nations, members of the League, where such protection is not given, to confer on their National Boy Scout organisations such protection as their national laws permit.

1931-13 Educational Cinema Films Exemption from Customs Duty

The Conference cordially welcomes the introduction to the League of Nations of a Draft Convention designed to exempt educational cinema films from customs duty.

The Conference holds that the scope of the definition of an educational film as set out in the draft convention should be extended so as to admit, under the proposed Convention, films in support of organisations whose work is essentially on an educational character, as well as films which are directly scholastic.

To that end the Conference recommends the following changes:

- A. Films intended to make known the League of Nations and other international organisations, governmental or of an international educational character, including international organisations recognised by the League of Nations and contained in their handbook.
- B. Films dealing with hygiene, physical training and social preventive or welfare work and explaining the work and methods of international organisations for promoting character training.

With regard to (E) the adequacy of words with applied limited meanings such as "preventive" and "welfare" should be carefully considered.

The Conference regards it as of prime importance that, if and when under such a Convention, Committees are set up in different countries to issue certificates for exemption of specific films from duty, due representation on such Committees should be arranged for such organisations as the Boy Scouts Association.

1931-14 World Jamboree 1933

The Conference wishes to offer its thanks to the Scout Associations of Czechoslovakia, the United States of America, the Netherlands and Australia and resolves that having regard to all the circumstances the invitation of the Hungarian Boy Scout Association to hold the next World Jamboree at Gödöllő, near Budapest between August 1 and August 15, 1933 be accepted.

1931-15 Conferences, Preliminary Papers

This Conference requests the International Bureau to arrange in future that all written papers on subjects for discussion should be available in at least two languages a sufficient time before the Conference opens, in order to enable delegates to come prepared with the views of their associations on the said subject; and further that the country responsible for the subject should prepare and deliver at the Conference itself a resume of the main points which it is required to make and upon which a definite opinion is considered desirable.

The Conference is of opinion that such a procedure would have the effect of saving time, of clarifying the work of the sessions and of allowing a reasonable period for informed discussion.

1931-16 Changes in Scout Promise and Law

The Conference places on record that the terms of the Resolution of the Kandersteg Conference (numbered 1926-29 in the pamphlet of Resolutions) respecting any changes in the wording of the Scout's Promise and Law, apply equally to the promise and Law of Wolf Cubs and Rover Scouts.

1931-17 Interchange of Correspondence Between Scouts of Different Nations

The Conference recommends the encouragement of the interchange of correspondence between the scouts of different nations.

It is suggested that control of the actual correspondence should be limited to ascertaining that the would-be correspondents are satisfactory Wolf Cubs, Scouts or Rover Scouts. It may be possible in some cases to give the correspondence a Patrol character but the essential is that, subject to the precaution indicated, the Scouts should be trusted to correspond in a manner consistent with Scout principles.

It is suggested that a study be made of the practicability of introducing an international stamp to be placed on such correspondence.

1931-18 Collaboration between Scouting and Schools

The Conference is of opinion that the programme and methods of Scout and Cub training be made known to teachers and boys in elementary schools.

That in camp training courses it should be urged on leaders that they should, as far as possible, work in cooperation with the schoolmasters of their boys and endeavour to bring about harmonious development as between Scout and Cub training and school teaching.

GODOLLO, HUNGARY, AUGUST 7-8, 1933

Note: Resolutions 1933-01 to 1933-09 are Resolutions of Thanks and Appreciation.

1933-10 Support from International Bureau

The Conference requests that when difficulties arise in which the International Bureau may be of assistance, Associations should report such difficulties to the Bureau, not after they have actually arisen and become acute, but when they are seriously threatening, thus affording the International Bureau a better opportunity to give prompt and effective assistance.

1933-11 International Conference 1935

This Conference offers its thanks to the Swedish Boy Scouts Association for the invitation to hold the International Conference in 1935 in Sweden, an invitation which the Conference cordially accepts.

1933-12 Promise and Law, Changes

The Conference resolves that it is the duty of any association registered with the International Bureau to notify the Bureau in the event of that association having made, or intending to make any modification in the Cub, Scout or Rover Promise or in the Cub, Scout or Rover Law, or in any other regulation embodying the essential principles of Scouting. (Re-affirmed 1953-07)

1933-13 Interchange of Correspondence and Visits Between Scouts of Different Nations

The Conference recommends the encouragement of the interchange of correspondence and visits between Scouts of different Nations and commends the principles set out in the valuable paper contributed by Monsieur I. Wolkowicz, International Commissioner of the Polish Boy Scouts' Association, dealing with the interchange of visits.

1933-14 Scout Law

The Conference expresses the hope that all associations will cooperate in an effort to have the spirit and content of the ten laws as drafted by the Chief Scout and Founder of the Movement, made universally effective and, in so far as local conditions make practicable, in the same numerical order; and further that, where any nations may find it desirable to supplement these ten laws, such additional laws follow after the original ten.

1933-15 Political Propaganda

This Conference again invites attention to the fact that political propaganda of any character, direct or indirect, national or international, must not be permitted in any camp or Scout gathering in which representative of other nations are invited to participate. (Re-affirmed 1963-16)

1933-16 Length of Service

The Conference recommends that national associations recognize length of service in other countries, duly authenticated, in authorizing the wearing of service stars whilst in that country.

STOCKHOLM, SWEDEN, AUGUST 5-7, 1935

Note: Resolutions 1935-01 to 1935-08 are Resolutions of Thanks and Appreciation.

1935-09 World Jamboree 1937

The Conference offers thanks to the Boy Scouts of Holland for the invitation which they hope to extend within the next three months to hold the next World Jamboree in Rolland in 1937; an invitation which the Conference would cordially accept.

1935-10 International Cooperation in Cubbing

With reference to the subject of international cooperation in Cubbing, the Conference accepts the proposal of the exchange of information and correspondence relative to the Cub Branch and requests that the International Bureau should take all suggestions outlined in Mr. Colquhoun's paper into consideration and collect those contributed by other Nations, with a view to constructing a simple scheme to enable specialists to widen their experience and consider their own Cub programmes in the light of what other nations are doing. It is further suggested that future Delegations to this Conference should include at least one member who is a Cub specialist.

1935-11 Publications, copyright

With reference to a former resolution on this subject the Conference suggests that in the case of articles or photographs appearing in Scout periodicals of which the association concerned does not possess the copyright, or of which for any other reason reproduction is not desired, without special permission, this should be explicitly stated at the end of the article or under the photographs.

1935-12 Warrants for ex-Girl Guide/Girl Scout

The Conference suggests that before any member or ex-member of Girl Guide or Girl Scout movements be given a warrant in Boy Scout associations the Girl Guide or Girl Scout association in question should be consulted first of all as to desirability of issuing a warrant.

1935-13 Jamborees, Frequency

The conference decided that World Jamborees should continue to be held at intervals of four years.

1935-14 Jamborees, Numbers

The Conference decided that World Jamborees should consist of one camp, divided into two sections:

Section A: a group of sub-camps consisting of the contingents from all countries, including the host country. The contingent from the host country in this group should not be larger than the largest contingent from any other country.

Section B: another group of sub-camps, consisting of Scouts from the host country only. No limitation of numbers in either group unless the host country wish to limit the numbers in Section B.

1935-15 Jamborees, Ages

The Conference decided that only Boy Scouts (with a due proportion of Scouters) should be allowed in contingents. If any Rover Scouts are included in contingents their numbers should be strictly limited and they should be for definite camp duties only.

The minimum age for participants in World Jamborees should ordinarily be 14 years.

1935-16 Jamborees, Organization

The Conference recommends that the recommendations of the International Committee on the organization of World Jamborees be taken into consideration by the organizing countries as far as local conditions will allow.

The recommendations as amended by the Conference and minus the paragraphs which have been included in these Resolutions, will be published in "Jamboree."

1935-17 Jamborees, Saluting

The Conference decided that on formal parades, when marching past a saluting base, each nation should follow the custom of its own country as to lowering flags or not.

1935-18 Conferences, Duration

The Conference decided that future International Conferences should be extended by one or more days, dependent on the length of the agenda, so as to allow additional time for discussions, particularly during the open session.

THE HAGUE, NETHERLANDS, AUGUST 10-12, 1937

Note: Resolutions 1937-01 to 1937-07 are Resolutions of Thanks and Appreciation.

1937-08 Alpine Club

The Conference has received with much satisfaction the report from Major W. De Bonstetten on the progress of the Kandersteg Chalet and Scouts Alpine Club, and suggests that all Boy Scout associations shall cooperate in making available information as to the value of the Chalet and the Club for Scouting purposes, and that the various Scout associations continue the support which they are already giving for the advantage of the Chalet and Scouts Alpine Club.

1937-09 Bronze Wolf

The Conference records with great pleasure the acceptance of the first Bronze Wolf by Lord Baden-Powell, and the presentation of the Bronze Wolf, incident to the Conference, to Major W. de Bonstetten, Mr. Hubert Martin and Mr. J.S. Wilson.

1937-10 Handicapped Scouts

The Conference requests the International Bureau to collect special information from medical and Scout authorities with regard to Handicapped Scouts, which shall be made available to all Scout Associations.

The Conference also requests that the International Bureau should take a suitable opportunity at an early date of putting the question before international conferences of medical authorities for the purpose of obtaining their co-operation, and offering to send to such conferences Scout authorities on Handicapped Scouts.

1937-11 Jamborees/Moots, Profits

The Conference on the recommendation of the International Committee suggests that any substantial profits on Jamborees or Moots should be shared between the host country and the International Bureau, in a proportion to be decided at the discretion of the host country; the share of the International Bureau to be used in promoting the Scout Movement.

1937-12 Keynote Resolution

The Conference recommends to all Scout Associations the contents of the paper as read by Mr. Tage Carstensen in regard to the question, "Is Scouting up to Date?" and impresses on them the importance of all Boy Scout Associations continuing to organise their Scouting on methods adhering to the ideas and ideals as given to the world by Lord Baden-Powell, its Founder.

1937-13 Conference of Leaders in Cubbing

The Conference accepts the invitation presented on behalf of Great Britain that it sponsor a Conference of Leaders in Cubbing some time during the summer of 1938 in accordance with plans as outlined in agreements reached at an informal group meeting of those interested in Cubbing and presented to the Conference.

1937-14 Programme of International Scout Conferences

The Conference received with much interest various suggestions presented as to how the programmes of future Conferences might be improved and refers all of these suggestions to the International Committee and the Director of the International Bureau for consideration in planning for the next Biennial Conference.

The Conference received with favour the suggestion that the programme include Group sessions relating to the subjects of Scouting, Cubbing, Rovering and so forth, 'to be held incident to the next International Conference for the purpose of obtaining Group discussions and crystallising ideas for presentation to a full meeting of the Conference proper.

1937-15 Patriotism

The Conference resolves that the International Committee be requested to do all that it can to ensure that Scouting and Roving in all countries, while fostering true patriotism, are genuinely kept within the limits of international cooperation and friendship, irrespective of creed and race, as has always been outlined by the Chief Scout. Thus, any steps to the militarization of Scouting or the introduction of political aims, which might cause misunderstanding and thus handicap our work for peace and goodwill among nations and individuals should be entirely avoided in our programmes.

1937-16 Political propaganda

The Conference upon the recommendation of the International Committee resolves that in view of Scout camp exhibits at this and previous Jamborees the International Bureau take steps to guard against exhibits at Jamborees of a political nature which might provoke brother Scouts from other parts of the world.

1937-17 Auxiliary Camp for Scouters

The Conference recommends that the plan as presented by Lord Hampton with regard to the establishment of an auxiliary camp for Scouters be referred to the International Bureau for study with the help of the various Scout Associations with a view to presenting a suggestion to the 1939 Conference when the necessary agreements relative to the next Jamboree will be made, if the host country is willing to undertake an experiment in connection with the next World Jamboree.

The Conference reasserts, in regard to Resolution 1935-15 of the Stockholm Conference, that only Hoy Scouts with a due proportion of Scouters should be allowed in the Contingents.

The Conference records its appreciation of the services of Mr. J.S. 1939-12 Displaced Persons

The Conference expresses its sympathy and extends greetings to fellow Scouts and Scouters who, through no fault of their own, have been forced to leave their native land. The Conference urges that every possible courtesy and help be extended to such Scouts and Scouters by the respective national association, whether the residence is to be temporary or permanent, and that, wherever practicable, an invitation be extended for them to become associated in some temporary way with the local Scout groups, rather than the development of any separate national group in another country. It is to be understood that principles involved are not to be interpreted with any retroactive effect.

The Conference recommends that in order to impress on all people the world-wide appeal and values of Scouting the co-operation of the broadcasting organisations be obtained to unite all Scouts once each year on the Sunday following the birthday of the Chief Scout of the World (22nd February), in a great International Scouts' Own Service, so that all may with one voice and at one time re-affirm their promise.

The Conference recommends that in order to obtain the maximum value and international contact from visits of Scout groups to other countries the following points of procedure be observed:

And further recommends:

- d) That the fortieth anniversary of the beginning of Scouting presents an excellent opportunity for launching and developing the formation of old Scouts branches.

With reference to Resolution 1947-15 of the 11th International Scout Conference concerning participation of non-Scouts in international Scout gatherings, the Conference reaffirms the decision then taken but agrees that occasional exceptions may be made to the general rule provided that the following two conditions are complied with:

- a) The international gathering concerned is not one officially organized under the aegis of the International Conference (Jamborees, Moots, etc.) but that it is only a gathering of limited scope organized by a Member Association of the Conference.
- b) That the list of those invited from outside Scouting is notified well in advance to the other Scout associations participating and to the International Bureau.

AGREES that the registration fee for 1950 shall be at the rate of £4 per 1,000 members, but expresses the hope that an increasing income from registration fees based on active membership and from other sources may enable the International Committee to reduce the rate of payment for the year 1951, in the absence of unforeseen events.

- b) The Conference desires that in applying for translation rights of any of the Founder's fundamental books on Scouting the applicant country shall also inform the International Bureau so that the Bureau may approve prior to publication the translation into that language and consult any other country having that language.

1951-12 Panel on Rover Scouts

The Conference thanks the Panel on Rover Scouts for their interesting Report and recommends this Report to the attention of those responsible for the Rover Section of its member associations.

1951-13 Old Scouts

- a) The Conference is convinced that Scouting is a whole. Being responsible for Scouting in its entirety, the Conference considers the world Scout Movement, to avoid any faction, must be represented solely by the International Scout Conference at a world level, with its International Committee and Bureau, and without any parallel organisation. On the other hand, being alive to the question of Old Scouts, the Conference has the duty to watch over their interests and recommends to national member associations that they foster the development of Old Scouts as much as possible. The International Committee is authorised to convene meetings for representatives of Old Scout bodies which are recognised in their own countries and with the object of sharing their experience and coordinating their efforts.
- b) The Conference thanks the Advisory Committee on Old Scouts for their services and requests the International Committee to keep this Advisory Committee in being for future consultation.

1951-14 Visits Abroad, Hitch-hiking

- a) The Conference strongly condemns the practice of hitch-hiking, also of touring parties which seek to solicit financial help either from Scouts or the public in other countries, in the course of Scout travels. It is not within the sense of the Scout Law to do so at the expense of others.
- b) While genuine expeditions and the spirit of adventure are to be encouraged, any intended Scout exploration parties should be advised well in advance to the Scout headquarters of the other country(ies) concerned through their own International Commissioner, as a matter of courtesy and in order to ensure practicability of planning.

1951-15 Visits Abroad, National Colours

Upon the recommendation of the International Commissioners, the Conference recommends that Scouts travelling abroad in uniform, either individually or in groups, should wear some national badge or colour flash, preferably above the shirt pocket.

1951-16 Correspondence, Control of Requests

Upon the recommendation of the International Committee, the Conference recommends that all requests for Scout badges, books, equipment, etc. received directly from individuals or units by the Scout headquarters or units of another country should be referred back to the national Scout headquarters of that country, and that normally such requests should be made through individuals or units own national headquarters. Exceptions may be made to this general rule in the case where reasonable requests are made by Scouts who have been properly "linked" on an exchange basis, provided that the regulations as to issue of badges are not contravened. Where requests of this kind are received from countries having no recognized Scout association the International Bureau should be informed.

1951-17 Correspondence, Chain Letters

Upon the recommendation of the International Commissioners, the Conference condemns the practice of "chain" or "pyramid" letters which are considered to be of no lasting value and liable to abuse. In some countries such "chain" letters are prohibited by law or the postal authorities. It is recommended that any such communications be destroyed by the recipient.

1951-20 Wider Use of the Scout Method

The Conference thanks the Greek delegation for their interesting paper on " Wider Use of the Scout Method " and strongly recommends to member countries:

- i) the fullest extension of Scouting to mentally and spiritually distressed boys,
- ii) the value of Scouting methods among boys in corrective institutions.

1951-21 National Camps, Dates

With reference to Resolution No. 35 (P:P:P), the Conference desires that this be amended and now read;

The Conference requests that all associations organizing national Scout gatherings to which Scouts from other countries are invited, should arrange to hold such gatherings during the principal fair-weather holiday season of that country and region.

1951-22 Gilwell Training

The Conference records its firm belief in the immense value of Wood Badge training both for the training of Scouters and for assuring unified Scouting in future.

The Conference further affirms its belief in the principles applied through this training at Gilwell Park, as a national and international training centre.

1951-23 1st World Indaba

- a) The Conference accepts with much pleasure the kind invitation of Great Britain to hold the 1st Indaba as a World Open Meeting for Scouters in 1952, and agrees that the general form of this gathering should follow the proposals made by the International Committee.
- b) The Conference recommends that in planning the Indaba, provision be made within the programme for group meetings of Scouters of the various branches (including handicapped Scouting).
- c) The Conference accepts with great pleasure the kind invitation from Italy to hold the 3rd International Commissioners' Get-Together during 1952.

1951-24A 5th World Rover Moot and 14th International Scout Conference

VADUZ, LIECHTENSTEIN, AUGUST 8-12, 1953

1953-01 Colonel John Skinner Wilson

The Conference records its most sincere appreciation of the faithful, devoted and efficient service rendered Scouting throughout the world by Colonel John Skinner Wilson.

Coincident with his retirement from active service, as Director of the International Bureau, we, his friends assembled in the 14th International Conference, pay tribute to his Scouting spirit and his unselfish loyalty to the ideals and purposes of the Movement as established by the Founder, Lord Baden-Powell.

His leadership has been purposeful, sympathetic and understanding.

He has been firm in championing our adherence to established standards and policies; but, with vision he has encouraged changes in programme and procedure as time and changing conditions made advisable.

He and his family have made great sacrifices to fulfil his mission of service to the boys of the world.

He has been an ambassador for peace; but a courageous Scouting leader in the fight for freedom in two world wars.

He was the hope of boys and leaders in nations temporarily conquered by those who would rule the world by force. His spirit, advice and encouragement sustained their Scouting spirit and organisation in countries overrun by the aggressor so that they fought on at great peril to win back their freedom.

Believing that through world brotherhood we can eventually have world peace, he has diligently promoted Scouting organisation, training, methods, and, above all, the Scouting spirit so effectively that we now have achieved a unity of Scouting purpose in 57 countries.

He has blazed world-wide trails to peace and brotherhood which we will follow.

To our friend, Colonel John Wilson, we express our deepest appreciation, our most heartfelt thanks, and our most profound admiration.

May God bless you and, through you, others in the future as he has done in the past.

1953-02 Appointment of Director Designate

The Conference notes with very great pleasure the appointment of Major-General D.C. Spry, C.B.E., D.S.O., C.D., as Director-Designate of the International Bureau, offers him its most cordial good wishes and assures him of its full support and co-operation in his future work.

1953-03 Report

The Conference accepts the Report of the Boy Scouts International Bureau as a record of the progress achieved since the last meeting of the Conference and expresses its thanks to the International Committee, the Director, Deputy Director and all members of the staff of the Bureau for their services.

1953-04 Reports – International Scout Chalet at Kandersteg

- a) The Conference records with much pleasure the Report of the International Scout Chalet at Kandersteg and of the Scouts' Alpine Club in their 30th anniversary year. The Conference warmly congratulates all those concerned with the great progress achieved in the condition of the Chalet, the facilities of the camping grounds and the number of Scouts for whom each session the Chalet provided such an excellent centre for climbing, camping and training in Scouting.

- b) The Conference particularly invites member Associations to make known the work of this centre and to encourage more individual members to join and support the Scouts' Alpine Club as subscribing members.
- c) The Conference offers its sincere thanks to the Committee of the Scouts' Alpine Club, the Warden of the Chalet and all their many helpers whose efforts have so greatly contributed to the success of the 5th World Rover Moot.

1953-05 Registration

- a) The Conference welcomes the recognition and registration accorded since the previous meeting of the Conference to:
 - The Australian Boy Scouts Council;
 - The Ceylon Boy Scouts Association;
 - Ikatan Pandu Indonesia (Ipindo);
 - Boy Scouts of Korea;
 - The Boy Scouts Association, New Zealand;
- b) and extends to all these Associations its cordial good wishes.

1953-06 Displaced Persons

The Conference extends its cordial greetings to Scouts living in exile and pays tribute to the devoted service rendered by many hundreds of Scout leaders in giving Scout training to boys displaced from their native lands and in maintaining contact between them wherever they may now be living.

The Conference commends to all Scout associations of countries in which such refugee former D.P. Scouts are now living the importance of making them welcome and assisting them to continue their Scouting in accordance with the provisions and sense of Conference resolution 1947-14, clauses D, E and F.

1953-07 Member Association Constitutional Changes

With reference to two previous resolutions of Conference (PPP. 28 and 47 q.v.), the Conference desires to make it clear to all member Associations that it is incumbent upon them to notify the International Bureau of any proposed changes affecting the essential principles of Scouting or the legal basis of their Associations, whether the intended change be to their Scout Promise, Law, Policy and Rules, Statutes, Charter, Incorporation or legal registration.

1953-08 National Camps, Invitations

- a) The Conference strongly commends the practice of countries planning to hold national, provincial or county camps inviting the Member Associations of the Conference in neighbouring countries to send contingents to participate in their camp and, if possible, to stay in the homes of Scout families of the host country before or after the camp.
- b) Upon the advice of the International Commissioners, the Conference recommends that the initial invitation to the national headquarters of the associations invited should be sent out at least six months in advance of the camp, giving preliminary details of dates, the number of contingents desired from each country, approximate cost, etc.

1953-09 Visits Abroad, Advance Notice

In extension of a previous resolution of Conference (1947-19) and upon the recommendation of the International Commissioners, the Conference desires that where any troop planning to visit another country requires advice or assistance in finding a camp site or any special accommodation facilities, the request should be made to the international department of the country to be visited at a minimum of three months in advance of the proposed visit. At shorter notice than this no help can reasonably be expected.

The Conference particularly commends joint camps between a visiting troop and one of the country they are visiting and a subsequent joint camp in the other country one or two years later (with the aim of establishing lasting personal friendships between Scouts of different countries and of improving the Scouting skills of both troops concerned).

1953-10 Visits Abroad, Behaviour

Upon the recommendation of the International Commissioners, the Conference desires that any breaches of the rules or cases of bad behaviour unbecoming to a Scout when travelling abroad are to be reported, giving details of name, group and a summary of the facts of the case, to the International Commissioner of the offenders own association so that he may deal with the matter on their return home. Such reports are not intended for publication. It is emphasized that such cases represent a very small percentage of the total large number of visits made, but that it is most important to check such defaulters for their own better training and to maintain the general high standard of conduct (cf. 1947-17 and 1951-14).

1953-11 Migrants

Upon the recommendation of the International Commissioners, the Conference recommends that any Scout or Scouter intending to migrate to another country shall be given an International Letter of Introduction, a summary of his record of Scout service and training and the address of the national headquarters of the country to which he is going.

In the case of warranted Scout leaders it is recommended that a confidential report on his ability as a Scouter should also be sent direct to the headquarters of the country to which he is going for their records. If possible the address to which any emigrant Scout or Scouter is going shall be notified to the national headquarters concerned.

Where the headquarters of any country wishes to check the previous record of an immigrant Scout or Scouter, it is essential that in applying to the International Commissioner of his former association they should give full details of his name and former rank, group and address and relevant dates of service claimed.

1953-12 Foreign Scouts Temporarily Abroad

Scouts temporarily living in another country should be given every opportunity to continue their training and should be encouraged to join a local Scout group.

The Conference recommends that such Cubs, Scouts or Rovers should continue with their badge work based on their own association's requirements but where any test is impossible for local reasons they should be allowed to take some suitable alternative test. In the case of any such boys who have not been Scouts before they should be encouraged to join a local group, by agreement with their own national Scout headquarters.

1953-13 Conduct of Meetings, Boy Scouts International Conference

The Conference thanks the International Committee for the paper circulated to all member Associations on "The Future Conduct of Meetings of the Boy Scouts International Conference," and requests that the recommendations contained therein be given full consideration in preparing its future meetings, with the exception of the recommendation on paragraph 11, clause (a) which shall be deleted.

1953-14 Appointment of President/Chairman of Conference and/or Committee

This Conference requests the International Committee to consider whether it is desirable to appoint a President and/or Chairman of the International Conference and/or Committee and to submit a report for consideration to the next International Conference. Such a report should be delivered to the National Associations by the 1st January, 1955.

1953-15 Former Scouts

The Conference welcomes the proposal to establish an International Fellowship of Former Guides and Scouts in accordance with the general principles of the draft constitution put forward by the representative meeting of Old Scout organizations of 1951 to the 13th meeting of Conference and on the undertaking given by the Old Scouts Advisory Committee and by those present at the International Conference of Former Scouts in September 1952 that the necessary safeguards for the interests of the Boy Scout Movement will be provided for in the Constitution and By-Laws of the Fellowship when adopted by that body.

The International Conference desires to make it clear that it is entirely a matter for each country to decide the form and organization of its own former Scout and Guide movements. These may be either as branches of the national Scout or Guide associations or an independent body having their approval.

The Conference instructs the International Committee to ensure that these safeguards and any other necessary procedures are agreed between the Boy Scouts International Committee, the World Committee of Girl Guides and Girl Scouts and the Council of the Fellowship. Further, the Conference instructs the International Committee on its behalf to agree the formation of a permanent coordinating body representing the committees and council aforesaid for the following purposes:

- a) To discuss matters of mutual interest.
- b) To promote closer cooperation in order to secure the deeper understanding and wider development of the Boy Scout and Girl Guide and also former Scout and former Guide aims, principles and practices.
- c) To the best of its power to resolve by consultation any problems or difficulties referred to it by the Boy Scouts International Committee, the World Committee of the Girl Guides and Girl Scouts or the Council of the Fellowship.

The Conference offers its cordial good wishes to the inaugural assembly of the Fellowship to be held in Switzerland next October for every future success.

1953-16 Retention of the Interest of Boys

The Conference asks the International Committee

- a) To place the subject of "retention of the interest of the boy" on the Agenda for the 15th International Conference.
- b) In preparation for this Conference, to issue to each member Association a questionnaire as to losses of boys at various ages and also as to losses of leaders, and the reasons for such losses.

1953-17 Purpose of "Jamboree" Journal

The Conference requests the International Committee to study the purpose, content and format of "Jamboree" in relation to its use for the dissemination of information of an international nature.

1953-18 UNICEF

The Conference commends the "United Nations Children's Fund" (UNICEF) as a valuable world instrument for child welfare and relief work and recommends its Member Associations to consider assistance and support for the national and regional committees and agencies of UNICEF in their work and to making known its purpose and work to their own members.

1953-19 Cooperation with the Girl Guide Movement

The Conference thanks the Swedish delegation for their paper, " Co-operation with the Girl Guide Movement."

The Conference recommends and requires:

- a) thorough study of the field of co-operation and co-education in Scouting by the Boy Scouts International Bureau and the World Bureau of Girl Guides and Girl Scouts on an international level;
- b) Studies of the national pattern of co-education and its bearing on Scout activities by the different Scout Associations. These studies must be free from prejudice and arranged jointly with parents, teachers, social workers and, of course, the young people themselves.

1953-20 2nd Agoon

The Conference thanks the Belgian delegation for their report on the 2nd Agoon and refers the proposals contained therein to the International Committee for study and report to the 15th International Conference in 1955.

1953-21 15th International Conference and 8th World Jamboree

The Conference accepts with much pleasure the kind invitation of the Boy Scouts Association of Canada to hold the 8th World Jamboree and 15th International Conference in Canada in 1955, and also thanks the Boy Scouts de Syrie most warmly for their invitation.

1953-22 2nd World Indaba

The Conference accepts with much pleasure the kind invitation of De Nationale Padvinderraad to hold the 2nd World Indaba in the Netherlands in 1956.

1953-23 Centenary of Founder and Jubilee of Scouting

- a) The Conference accepts with great pleasure and enthusiasm the invitation of the Boy Scouts Association to celebrate in Great Britain in the summer of 1957 the Centenary of the Founder and the Jubilee of the beginning of the Boy Scout Movement, the celebration to take the form of a combined World Rover Moot and Scout Jamboree. This Moot will come in the regular quadrennial series but the Jamboree will be an extra one and will not replace either the 8th World Jamboree of 1955 or the subsequent World Jamboree of 1959.
- b) The Conference strongly recommends to all its member countries that in making their advance plans for the year 1957 they take fully into account the importance of celebrating by all suitable means this double anniversary.

NIAGARA FALLS, CANADA, AUGUST 28-31, 1955

The report of the Boy Scouts International Bureau submitted to the Conference by Major General Spry covers the period of his first two years of office. The Conference wishes to compliment the Director on the vigorous effectiveness of his leadership and accepts his report with great satisfaction.

The Conference expresses its lively appreciation of the service which the International Bureau continues to render to world Scouting and expresses its cordial appreciation of the work and inspiration provided by MM. R.T. Lund, P.A. Siebold, L.F. Jarrett and all members of staff. The Conference especially welcomes the appointment of Mr. Lund as Deputy Director of the Bureau.

The Conference wishes to make special note of the unique service rendered by Ing. Salvador Fernandez, the Bureau Travelling Commissioner in Latin America. The Conference warmly welcomes the excellent report presented by Sr. Fernandez on behalf of the Inter-American Advisory Committee, on the energetic efforts being made for the development of Scouting in the Latin American region and the splendid results being achieved.

The organisation of the International Bureau and its plans for the future are accepted by the Conference with enthusiasm. The Conference considers that the plans of the Bureau offer a brilliant future in promoting the International Scout Movement.

1955-02 Constitution Amendments

In accordance with Article IX of the Constitution, the Conference has approved certain amendments thereto and resolves that these amendments be incorporated in the text of the Constitution and Bye-Laws forthwith.

1955-04A Registration Fees

In order that the development of international Scouting and the necessary work of the International Bureau shall not be hampered by lack of funds, the Conference agrees that the International Committee shall raise the registration fee to the rate of £5 per 1,000 active members in 1956.

1955-04B Registration Fee System

The Conference requests the International Committee to study the possibility of relating the contribution of the different member Associations not only to the single criterion of the number of Scouts registered in each Boy Scout Association, but also to the economic development of each member country.

1955-04C Development Fund

The Conference notes with satisfaction the institution of the International Bureau Development Fund and welcomes the efforts being made to secure corporate and individual donations for this to increase the income of the Bureau.

1955-04D Stamp Scheme

The Conference commends the results achieved to date with the Bureau Stamp Scheme as a further means of income and requests all Member Associations and their overseas branches to support this plan by encouraging their members and friends to forward used postage stamps to the Bureau.

1955-05 Alpine Club

The Conference takes note of the report of the Scouts Alpine Club and the International Scout Chalet, Kandersteg, and welcomes the important improvements which have been made to the Chalet and the camping grounds during the past two years.

It is particularly noteworthy that the work of the Rovers participating in the World Rover Moot of 1953 added to the amenities of the site and that three fountains, showers and a shelter cabin have been added to the Chalet grounds.

The Conference especially thanks those associations which have furnished "national rooms" in such good style in the Chalet, and recommends to other countries, which have not yet done so, that they should also equip rooms in this way to add to the international character of this centre.

The Conference requests the Scouts Alpine Club Committee to consider the possibility of opening the Chalet for a limited period during the winter vacation season.

1955-06 Gilwell Team

The Conference expresses its most cordial appreciation of the excellent service being rendered to International Scouting by the Camp Chief of Gilwell Park, Mr. John Thurman, the staff at Gilwell and all members of the International Gilwell Training Team.

1955-07 Wood Badge Training Emblems

The Conference records with pleasure and satisfaction the worldwide adoption of the Wood Badge training system. It feels it important to maintain and safeguard the copyright of the relevant insignia.

The Conference confirms that the various emblems used in connection with the Wood Badge system of training may only be awarded to Scouters and officers who have qualified by gaining the proper certificates and on the authority of the national training commissioner or members of the international Gilwell training team, who hold honourable charges as such, in recognized Member Associations of the Conference. Specifically, these emblems are:

The Gilwell Waggle: A "Turk's Head" scarf slide of two strands made in round leather thong.

The Wood Badge: Two wooden beads, facsimile of the Dinizulu necklace, worn on a leather thong or cord round the neck.

The Gilwell Scarf: Grey scarf with a red lining bearing a MacLaren Tartan patch on the point.

No modification or addition may be made to the scarf.

The Conference further confirms that the terms "Wood Badge", "Wood Badge Course" and "Wood Badge Parchment", and the titles "Akela Leader" and "Deputy Camp Chief" may only be used in connection with this system of training, carried out under authorised leaders and as outlined in the pamphlet "The Training of Scouters and the International Gilwell Training Team".

1955-08 Port Liaison Officers

The Conference welcomes the extension of the Boy Scout Port Liaison Officers scheme. It recommends to the International Commissioners of all member countries that they should appoint some member or supporter of the Movement in this role at the principal sea and air ports or rail centres carrying international traffic. Details of such appointments should be notified on the appropriate record card to the International Bureau for inclusion in the international list of Port Liaison officers.

1955-09 International Commissioners Meeting

The Conference notes the good work of the 4th Get-Together of the International Commissioners, in Finland in 1954. Study and consideration of their comprehensive report is recommended to the International Commissioners of all member Associations.

1955-10 Training in International Scouting

The Conference recommends to all associations that they consider incorporating in their training manuals such as "First Steps in Scouting", "Tenderfoot Tests" or "Boy Scout Handbook" an explanatory paragraph in simple terms relating to the significance of the Scout Law, "A Scout is a friend to all and a brother to every other Scout" and to the term used in the investiture ceremony, "You are now a member of the worldwide brotherhood of Scouts".

The Conference requires the International Bureau to circulate to all member Associations a suggested text.

1955-11 "Losses" Report

- a) The Conference cordially thanks the select committee and all those who have contributed to it for the valuable report on "Losses of boys and leaders".
- b) The Conference strongly recommends to all Member Associations that their national headquarters should study this report thoroughly to see which of its queries and conclusions may apply to their own Scouting, and to seek the necessary solutions of their particular problems.
- c) The Conference thanks Mr. J.F. Colquhoun for his excellent presentation of this subject.

1955-12 Handicapped Advisory Committee and Fund

- a) The Conference thanks Hr. Bengt Junker for his admirable paper "Humanitarian Actions for Handicapped children".
- b) The Conference welcomes the institution of the International Advisory Committee on Scouting with the Handicapped and strongly recommends that member countries which have not already done so should cater for the inclusion of handicapped boys in ordinary groups where possible and, where it is not, by forming groups attached to sanatoria, hospitals and special schools. The Conference believes that Scouting is highly effective in the development and recreative training of all boys including those with many forms of handicap.
- c) The Conference recommends that at future world gatherings held under the aegis of the Conference the host country should consider the allocation of any collections at religious services to the international fund for the development of Scouting with the handicapped, administered by the International Bureau, or of sharing such collections between this fund and some other national Scout charity.

1955-13 Publications

The Conference welcomes the establishment of the International Advisory Committee on publications and the progress being made in this field.

The Conference expresses satisfaction with the new format of the international magazine "World Scouting" and requests vigorous support of this journal by all member associations by promoting sales and in obtaining news and pictures regularly.

The Conference especially records its deep appreciation of the most able services rendered by the editor, Mr. E.E. Reynolds, during the period 1946-1955.

1955-14 Annual Report to International Bureau

The Conference reminds all Member Associations that they are required to send to the International Bureau an annual report on their affairs. This should include details of membership, national officers, important events, public opinion on Scouting and any changes in policy, programme, organization, training, etc.

1955-15 Community Service

The Conference commends the proposal for Scout Associations to conduct national community service campaigns in the year preceding the Centenary of the Founder and the Jubilee of the Scout Movement. It is for each country to select the most suitable themes and tasks for such good turns but it is desirable that these be carried out in consultation with the appropriate national societies or public service departments, and, where applicable, with the field agencies of UNICEF, WHO, FAO.

The Conference requires the International Bureau to circulate to Member Associations a note suggesting suitable projects for their consideration.

1955-16 Geophysical Year

The Conference warmly welcomes the invitation from the organisers of the Geophysical Year for Scouts to assist in their work and with their field teams, and recommends to member Associations that, where applicable, this would prove to be a most useful form of training older Scouts, Explorers and Rovers.

1955-17 Indabas

The Conference expresses its warm appreciation of the consideration of De Nationale Padvindersraad, Netherlands in agreeing to postpone the Indaba planned for 1956 until 1960 to help ensure the success of the 1957 celebrations.

1955-18 Keynote Resolution

The Conference believes that Scouting with its methods as initiated by B.-P. Can always attract the boy if we insist on giving boys real Scouting with its romance, adventure inspired leadership, advancement programme and spiritual life.

The Conference as the central world body of our Movement expresses the conviction that World Scouting in the existing general international atmosphere can play a most important part by preparing good citizens for tomorrow with the right ideas of a constructive mutual understanding among all nations and towards lasting peace.

The Conference looks forward to B.-P.'s Centenary in 1957 and urges all Associations to strive for a standard in their Scouting which will be a worthy memorial to our great founder Lord Baden-Powell in the jubilee year of the Movement.

Let this objective be our New Horizon.

Padolina and his assistants.

1957-03 Far East Scout Advisory Committee

The Conference welcomes the inauguration of the Far East Scout Advisory Committee and believes that this body will, in consultation with the International Bureau, prove a valuable means of stimulating Scouting both nationally and internationally throughout the Far East Region. It will work in collaboration with the Boy Scouts International Bureau.

The Conference records its sincere gratitude to the Camp Chief and Staff at Gilwell Park and all members of the International Gilwell Training Team for their most valuable work in fostering the true spirit of Scouting in maintaining its fundamental methods and in promoting a high standard of Scoutcraft.
- b) The Conference particularly welcomes the inauguration by Gilwell Park of special instructor 's courses ("Training the Team") and looks forward to considerable development along these lines. It recommends that member countries take advantage of these opportunities by sending present and potential training team members to take part in these courses.

- e) The Conference supports the proposal that all Scouters who have taken Wood Badge Training in any country should be encouraged to subscribe regularly and on a personal basis to the funds of the 1st Gilwell Park Group and asks that National Training Leaders should encourage them to do so.

1957-07 International Commissioners

Further to Resolution 1922-12,

- a) The Conference considers it essential that member countries should at all times have an International Commissioner who will be their headquarters commissioner primarily concerned with relations between his association and those of other countries and with regular liaison with the International Committee and Bureau. The Conference holds most strongly that this is an office vital to the successful conduct and development of International Scouting and for an increasing understanding of our world brotherhood by all members of every national association.
- b) It is desirable that each International Commissioner shall have one or more assistants and thus establish a team to undertake the various tasks involved in his work. It is also desirable that national headquarters shall provide some secretarial assistance for the work of the International Commissioner's department.
- c) In countries having more than one association the International Commissioner should hold office from the federal council - Or with its full support - and there should be an assistant International Commissioner in each association. Alternatively, each component association of the federation should have its own International Commissioner with one holding the office of International Commissioner for the Federation in turn.
- d) The Conference considers it essential that the International Commissioner shall ex officio have a seat on the national council or board (or its executive committee) or shall have access to it at all times.

1957-08 International Scout Projects

1957-09 U.S.A. People to People Programme

The Conference records with very great pleasure the success of the People to People Programme as presented at this Conference and the tribute paid to Scouting as a result of Dr. Arthur A. Schuck, Chief Scout Executive of the Boy Scouts of America, having been selected to lead the Youth Committee of this project. Because this programme offers an unusual opportunity for building bridges of friendship between boys and girls of many countries the conference recommends that all our Scout Associations consider active support of and participation in the People to People Project.

1957-10 International Fellowship

The Conference welcomes the gradual progress of the IFOFSAG and renews its recommendation to member countries to secure the organised support of former scouts.

As Scouting begins its sixty-first year, it looks backward with pride and forward with enthusiasm.

Scouting embodies today all of the lasting principles of its Founder, Lord Baden-Powell; yet at the same time, through its standards, adapts itself to the world of tomorrow.

Through a strong world organisation dedicated to service at all levels, Scouting has become a major cohesive force among peoples and youth.

The ties of mutual interest and experience bind Scouts of all the World, transcending world events. The training and ideals of Scouting, infused in man and boy, have created bonds whose strength has endured through life.

The XXI World Conference pledges itself with renewed zeal to the interests of World Scouting, World Brotherhood and mutual understanding.

1969-03 Declaration of Principle

The Boy Scouts World Conference:

- a) Asserts its belief that the ideals as set forth in "Scouting for Boys" are so fundamental as to transcend the limits of race and country.
- b) Records that the aims, basis and fundamental principles are defined by the World Scout Constitution (Articles III and IV).
- c) Declares that the Boy Scout Movement is a movement of national, international and universal character, the object of which is to endow each separate nation and the whole world with a youth which is spiritually, morally and physically strong. It is national in that it aims, through national organizations, at endowing every nation with useful and healthy citizens. It is international in that it recognizes no national barrier in the comradeship of the Scouts. It is universal in that it insists upon brotherhood between all Scouts of every nation, class or creed.
- d) Reaffirms its steadfast loyalty to the aims, principles and methods of Scouting for Boys, as inaugurated by the late Lord Baden-Powell, and its belief in the value of international Scouting in the promotion of understanding and goodwill among all peoples.
- e) Asserts that whilst membership in Scouting in any country should foster true patriotism, this should genuinely be kept within the limits of international cooperation and friendship irrespective of creed and race.

Therefore

1. The Conference reaffirms that the conditions for international recognition of any national Scout organization (and its membership) are set forth in the Constitution of the Boy Scouts World Conference.

Recognition does not represent intrusion into the field of politics, nor should it be considered by any government or official as affecting the sovereignty or diplomatic status of any country.

2. The Conference further re-affirms that "the aim of the Boy Scout Movement is to develop good citizenship among boys by forming their character, training them in habits of observation, obedience and self-reliance; inculcating loyalty and thoughtfulness for others; teaching them services useful to the public and handicrafts useful to themselves; promoting their physical, mental and spiritual development".

1969-04 Unity of Scouting

Convinced that the unity of the World Scout Movement in brotherhood, structure and action is of the highest importance in its efforts to serve the boys of the modern world and to bring Scouting to all boys desiring membership:

The Conference having carefully studied the paper presented by the British delegation entitled "The Unity of the World Scout Movement", is deeply impressed by its relevance in a divided world. It recommends a careful study of this paper by all member countries and by the World Committee.

It also requires that every effort be made to put into practice as soon as possible the proposals for unity and practical Scout internationalism contained in it and that its spirit guide the work of the World Movement. It directs the World Committee to ensure that any new country wishing to apply for membership of the Conference shall be encouraged and helped as necessary to establish a single, united national organization open to all boys.

1969-05 World Scout Emblem, Flag & Badge

1. The World Scout Emblem

The Conference resolves that the World Scout Emblem shall consist of a field of royal purple bearing the white international arrowhead surrounded by a white rope in a circle and a central reef knot at the bottom, authorizes its use and reproduction by Member Associations and their members in forms not intended for sale, and directs that it be incorporated in the emblem designs of official international events.

2. World Emblem, Promotion and Protection

The Conference recognizes the values to the Movement of using the World Scout Emblem, and directs the World Bureau to act on behalf of the Movement to control protection of the Emblem and to license whenever appropriate its reproduction in any form intended for sale.

3. World Brotherhood Items

The Conference encourages Member Associations to build familiarity for the World Scout Emblem and its significance both within Scouting and with the public, directs the World Bureau to continue to study and make available appropriate "world brotherhood items" carrying the emblem, and urges associations to make such items readily available to their members through Scout shops, special events and camps.

4. The World Scout Badge and Flag

- a) The World Scout Badge shall consist solely of the World Scout Emblem contained within a circle, as defined in paragraph 1.
- b) The World Scout Flag shall consist solely of the World Scout Emblem with the field rectangular, three units wide by two units high, the Emblem central and 1.25 units wide.
- c) The use of the World Scout Badge and World Scout Flag by Member Associations, their units and members, is authorized and encouraged whenever appropriate.

5. Resolutions 1961-12, 1961-13 & 1963-11 are hereby revoked.

1969-06 Finance, Development Funds

The Conference:

1. Approves the proposal from the World Committee concerning funds now in existence and certain funds to be acquired in the future and instructs the Committee to:
 - a) create a fund for capital gifts which will receive the capital gifts now in the B-P. Centenary Fund. (Any new capital gifts or grants would normally be diverted to the World Scouting Foundation.) Investment of these capital amounts to be directed by the Administration Sub-Committee. Income from this capital account to be accumulated or expended in accordance with the wishes of the donor; if no such direction exists, then income shall be added to the Scout Universal Fund as explained in paragraph 3.

1969-07 Community Service

- a) The Conference emphasizes the fundamental importance in Scouting of training boys to be useful to others and in service to the community as an essential part of training for active citizenship.
- b) The Conference specifically recommends to countries:
 1. The value of having a headquarters commissioner or a member of the national programme committee particularly concerned with community service.
 2. The importance of the project method in helping Scouts participate in planning and conducting their service projects as a means of making these significant to the Scouts themselves.
 3. The need for thorough training for emergency service, the formation of local rescue teams and service squads prepared for such action and of proper liaison in advance with the appropriate authorities.
 4. The importance of national associations carrying Scouting to boys who are orphans, underprivileged or handicapped.

1969-08 Publicity for Community Service Projects

In order to encourage Scout associations to adopt and undertake community development and community service projects as integral parts of their Scouting programmes and in order to provide Scout associations with examples and models of such projects, the Conference recommends that the World Bureau study the possibility of compiling documentaries on film, print and record tapes of the more outstanding existing community service projects conducted by associations with the end in view of bringing these projects to the attention of all Scout associations by giving them the widest possible publicity in all media, in particular through the use of the facilities of established regional radio networks.

Reaffirms its belief that the voluntary acceptance by Scout organizations of a coordinated scheme of adult leader training provides one of the most valuable and practical methods in achieving unity in World Scouting and records its agreement that the pursuit of this objective by this process should be continued.
3. Having heard and discussed the report to the Conference by the World Training Sub-Committee, unanimously expresses its complete agreement with the philosophy and principles contained in the report and recommendations. It considers that the flexibility in the proposals makes their implementation a realistic, practical and exciting possibility, and records its appreciation to the World Training Sub-Committee for the work done in the development of the report and the proposals.
4. Resolves that the policies and procedures on training, as established by Resolution 1955-07 of the 16th International Conference and 1961-06 of the 19th International Conference are now modified by the adoption of all the recommendations contained in the Report for the World Training Sub-Committee dated 21st August 1969, in relation to unit leader training, national trainers, courses for trainers, international training centres, Gilwell Park, training administration and training services.

 - ii) in all other cases, and subject to the agreement of its National Scout Organization and the participation of male members from the SAGNO concerned, female members of a SAGNO may:
 - participate on an equal footing with members of WOSM:
 - in all non-statutory events organised by WOSM, such as training courses and seminars

- emphasizing the importance for Scouting at all levels to adopt a Strategy which, building on the achievements since the Melbourne Conference in 1988, enables the Movement to accomplish its mission with renewed vigour as it approaches its 100th anniversary in 2007
- confirming that being a worldwide Movement in an increasingly globalized world gives Scouting and its members a global responsibility to try to make the world a better place

2002-07 Keeping Scouts Safe from Harm

The Conference

- recognising that the United Nation's Convention on the Rights of the Child requests States to ensure that children are protected from all forms of physical or mental violence, injury or abuse, neglect or negligent treatment, maltreatment or exploitation, including sexual abuse
- noting that there is a growing awareness in society of the need to protect young people from all forms of abuse
- considering that Scouting is an educational Movement whose mission is to help young people develop their full potential in accordance with the Scout Method, which involves the effective functioning of the peer group under appropriate adult guidance
- emphasising that the achievement of Scouting's mission makes it essential for the Movement to provide young people with a 'safe passage' which respects their integrity and their right to develop in a non-constraining environment
- further emphasising that providing this 'safe passage' is possible only if young people are protected from all forms of abuse, i.e. verbal, physical, sexual and emotional, neglect and peer pressures
- welcoming the fact that a number of NSOs have developed effective policies and procedures aimed at ensuring the 'safe passage' for their young people in Scouting
- urges NSOs to adopt and implement policies and procedures to ensure the safe passage of young people throughout their time in the Movement
- recommends that in developing such policies associations should ensure that legal requirements within a country, and the standards set out within the Convention on the Rights of the Child, are met
- further recommends that NSOs ensure that such policies are duly reflected in the totality of the association's activities, in particular:
 - at the level of the youth programme - that it instils self-confidence and self-esteem in young people and develops the ability to protect and express themselves
 - at the level of adult leadership - that recruitment policies ensure that only appropriate adults are recruited and that all adults, irrespective of their role, receive training and support in this area
 - at the level of management of the association - that policies and procedures for intervention, including risk management, incident management and public relations are put into place
- recommends to the World Scout Committee that tools and documents are developed to support National Scout Organizations with this implementation

- reaffirms that the World Scout Committee, as executive body of WOSM, must be comprised of highly qualified persons who can contribute to the development of World Scouting in an efficient, remarkable and convincing manner
- urges the World Scout Committee to give candidates for election to the Committee the opportunity to introduce themselves during the plenary session, allocating enough time and space that the Conference can take into consideration the high quality of the candidates and urges candidates to present their motivations, priorities and objectives for their future work in the World Scout Committee and ways to achieve these.

2002-10 Reimbursement of Expenses

The Conference

- recognising that participation in decision-making bodies should be based upon competence
- noting that under the present system only persons who have the personal financial resources or persons who have financial support from their association can afford to become members of the World Scout Committee
- recalling that Circular N° 32/2001 contained a note that members of the World Scout Committee are entitled to request reimbursement of their expenses to attend the annual World Committee meeting at which the budget is approved, thus highlighting the issue and making the need for an open and clear policy even more necessary
- believing that a policy of reimbursing the expenses of the members of the World Scout Committee to attend meetings of the World Committee and sub-committees will widen the spectrum of people and range of countries represented in the World Committee
- hoping that a policy on reimbursing the expenses of members of the World Scout Committee to attend World Committee and sub-committee meetings will encourage National Scout Organizations to particularly nominate young people for election to the World Committee, as these are the people who are much more in need of financial support compared to older adults
- recommends that WOSM reimburse the expenses of members of the World Scout Committee to attend World Committee and sub-committee meetings.

2002-13 WOSM/WAGGGS Relationships

The Conference

- noting that the 31st WAGGGS World Conference in Manila in June 2002 has adopted a resolution on the WAGGGS Long Term Vision which recommends to continue to dialogue with WOSM within the Consultative Committee to explore aspects of an "allied future" that, inter alia, preserves the mission, identity and unique character of WAGGGS and respects the independence of each of its Member Organizations
- respecting fully WAGGGS' position
- recommends to the World Scout Committee to continue its dialogue with WAGGGS within the Consultative Committee
- further recommends to the World Scout Committee to ensure that this dialogue be clearly focused on exploring ways of strengthening relations between WOSM and WAGGGS and that it be fully compatible with the objectives and priorities of the Strategy for Scouting

- noting that the 2007 Task Force for the Centenary of Scouting, composed of ex-officio members representing the World Scout Committee, the World Scout Foundation, the World Scout Bureau, and The Scout Association of the United Kingdom, was constituted in 1997 and continues to work towards the development of a Centenary programme

- having received World Scout Conference Document N° 11 "Toward Scouting's Centenary: 2002 to 2007"
