SCOUTS®
Creating a Better World

TOOLS FOR SUPPORTING ENGAGING DIGITAL EVENTS.

SCOUTS®
Creating a Better World

This handy list of tools will help you explore just **some** of the digital options out there for you to use in your engagements as a consultant. Some are free and some require a subscription but all of them provide lots of support and videos on how they can be used.

When planning to use any platform or tool you should think about which tools will elevate your digital delivery yet keep it simple for the participants in your workshop or session. Make sure you also take a look at the guidance on **preparing for delivering to an NSO** and **top tips for great digital sessions.**

Always ask your Regional Support Centre what tools they may have access to if they are subscription based as you may be able to access the use of those too.

Interactive Feedback and games tools

Kahoot

KAHOOT! is a game-based learning platform that makes it easy to create, share and play learning games or trivia quizzes in minutes. Unleash the fun in classrooms, offices and living rooms!

https://youtu.be/7XzfWHdDS9Q

Slido

SLIDO is an easy to use Q&A and polling platform. It helps people to get the most out of meetings and events by bridging the gap between speakers and their audiences.

https://youtu.be/XfnJkz00pTg

Keamk

KEAMK is a Random Team Generator. It is a service to create random groups from a list of participants. Keamk also offers the possibility of generating balanced teams using different criteria such as gender or skill level of participants.

Quizalize

QUIZALIZE is an online platform for classroom polling and assessing that can be accessed by computer, tablet, or mobile phone. Teachers can create quizzes to test students' knowledge in the classroom, then see the results propagated in the Teacher Dashboard through data reports.

https://www.youtube.com/channel/UChiwgEZYGGyNbUFVwdh5_AA

Classcraft

CLASSCRAFT is a game-based approach to teaching and learning.

It was created to encourage your child's participation in class and with their lessons, promote good behaviour, and develop 21st-century skills like collaboration and communication. Everything they learn stays the same, but they get to have a little fun each day!

https://youtu.be/zgcxo3dVcTU

Edpuzzle

EDPUZZLE is an easy-to-use platform allowing you to engage every student, one video at a time. Get to know more about us below.

https://youtu.be/-L62wAxCzEM

Collaborative Tools

Mural

MURAL is a digital workspace for visual collaboration. Based in the cloud, MURAL provides shared, virtual whiteboards where teams can visually explore complex challenges, facilitate design thinking methods, and organize Agile processes across any device.

https://youtu.be/o0946e6barQ

https://youtu.be/xJl0zbAQLzc

https://youtu.be/o0946e6barQ

Miro

MIRO is the online collaborative white boarding platform that enables distributed teams to work effectively together, from brainstorming with digital sticky notes to planning and managing agile workflows.

https://youtu.be/7L1-0DOGHDY

Jamboard

JAMBOARD is one smart display. Quickly pull in images from a Google search, save work to the cloud automatically, use the easy-to-read handwriting and shape recognition tool, and draw with a stylus but erase with your finger – just like a whiteboard.

https://youtu.be/-RaT2sHL4aw

https://youtu.be/gXwV5SlKLAE

Brainstorming Tools

Dropbox Paper

Create and edit docs without leaving DROPBOX PAPER is more than a doc-it's a workspace that brings creation and coordination together in one place. Write and edit, brainstorm, review designs, manage tasks, or run meetings.

https://youtu.be/fmsq1uKOa08

Padlet

PADLET is a website that provides users with a digital canvas. The user can post text, videos and images from a mobile device or a desktop. One of the great appeals of Padlet for classroom use is the fact that many people can post to the same board at the same time, making it very suitable for collaborative work and the creation of projects.

https://youtu.be/U3P5QySmLeU

Ideaflip

IDEAFLIP is an innovative, cloud-based mind mapping software designed to help change agents, leaders, facilitators, and innovators collaborate in real-time with colleagues to generate & manage ideas, brainstorm creatively, and solve problems.

Noteapp

NOTEAPP (formerly known as CorkboardMe) is a virtual corkboard that allows users to create sticky notes filled with different types of information and to collaborate with others. Click anywhere on the screen to drop a sticky note, then choose a color and add files or write text.

Platforms to use for delivering digital sessions

Name	Price	Advantages	Disadvantages	Tutorials

Project Management tools

When you are managing your project you may want to explore the use of a collaborative digital tool, some useful ones are below. However, it is key to remember that you must ensure that all your updates and actions are stored on the service platform and not on other tools outside of WOSM.

NAME	Pricing	Advantages	Disadvantages	Tutorials
ASANA	Basic FREE license	Have an unlimited task ad projects that you can create Can see your project as a calendar or as a list. Assign until 15 people to each team (you can create various teams that collaborate with the same project). Can assign tasks to each team participant. Asana could be synchronized with other apps	If you have more than 15 team members, you need to make multiples teams. If you want some of the payment features, you need to buy an annual membership	https://asana.com/es/guide/get-started/begin/quick-start https://www.youtube.com/watch?v=iKsO9zx9n2Q

NAME	PRICING	Advantages	Disadvantages	Tutorials
TRELLO	FREE	For every project, you make a "board" and can add an unlimited task to each board. For every task you write "cards", each of one has its own list of achievements - these are unlimited. You can upload documents up to 10 MB. Can assign tasks to each team participant. It's really easy to use	On the free account, you have until 10 boards per team You don't have a calendar view	https://trello.com/guide https://www.youtube.com/watch?v=WlzWKP0Dp3E
CLICK UP	FREE	Don't have a limit to users that can join to your project. Can upload documents until 100MB. Can assign tasks to each team participant. You can add comments and have a chat in the menu of every task.	Have a limit of 5 spaces - 5 projects at the same time Is not so easy to use	https://clickup.com/onboarding https://youtu.be/f_exDBcGYnM

Document Storage

It is vital to remember to abide by data Privacy laws when handling documents that may contain any personal or sensitive data such as names, email addresses and so forth.

NAME	PRICING	Advantages	Disadvantages	Tutorials
GOOGLE DRIVE	FREE	On the free account you have 15 GB to store documents, videos, presentations, etc. You can create folders and allows you to share an entire folder or a single document. You can create directly the documents on the cloud (for example a doc, a calc sheet, or a presentation). You can manage the sharing configuration.	You need a google account The storage capacity it's shared with other google tools, like e-mail	https://www.youtube.com/watch?v=cCZj5ojxRAA

DROPBOX	FREE	Have until 2GB of storage. If you have a google account, you can access with the same user details. Allows you to create a folder on your desktop to share the documents (when you are connected to internet all the documents automatically would be uploaded to the last version on the cloud) You can edit and create some documents.	On the free version, you only have 2GB	https://www.youtube.com/watch?v=h8gAlEb8-d0
WE TRANSFER	FREE	Allows you to send documents up to 2GB. You don't need to make an account to use the service	On the free version, to share the document you create a link which will expire one week later	https://www.youtube.com/watch?v=gmzMsSCKj4E
