

WAGGGS WOSM Stronger together

For more than a century, **WAGGGS** and **WOSM** have empowered generations of young men and women through non-formal education.

SHARED HERITAGE

We share our Promise, Educational Method, distinctive salute and uniform, and **we are proud of this common heritage**. As we look to the future, we are convinced in the continued relevance of the principles and values upon which our organisations were founded.

GREATER COLLABORATION

Together we have transformed the lives of millions of young people, and **we are committed to continue our collaboration** – to enable more young people to experience the power of our programmes. We believe that both organisations complement each other in our efforts to empower young people and create impact in their lives and the world around them.

CELEBRATING DIVERSITY

We will work closely while **recognizing and celebrating the diversity of both organisations**. We will promote peace, active citizenship, volunteering and sustainable development, including by bringing more young people together at events, and by advocating on global issues. Our collaboration will take different forms in different places, reflecting the varying needs and realities of young people.

**Together,
we are strong partners
for young women and men.**
